

## **Online Bidding FAQ**

### **How can I participate in Online Bidding?**

- Please include your mobile phone number while registering for the event.

### **What are the benefits of Online Bidding?**

- Once bidding starts, you will be alerted on your mobile device when you have been outbid, so you can instantly respond with another bid.
- Bidding can occur at any location within the auction itself.
- You do not have to physically be at the event to make a bid.

### **Online Bidding Highlights**

- Online Bidding allows for a completely paperless bidding system.
- You are able to use technology you already know ..... your own smartphone or tablet (iPad, Samsung Galaxy, etc).
- It is fun and easy.
- You are notified via text when you are outbid and can rebid immediately from your phone without going back to the auction package on the display table.
- Online bidding eliminates overcrowding and hovering around auction packages and bid sheets.
- Online bidding will make the event run more efficiently from registration to checkout.

### **Will this work for all mobile devices?**

- Yes, you can bid with any mobile device.
- With smartphones and tablets, you can browse, search and bid via a web browser.
- When registering your mobile device, you will be provided a custom URL for bidding purposes.
- With standard mobile phones, you can bid and receive alerts via text messaging.
